# Smart & Secure IT Solutions

## Secure • Managed • Scalable • Future-Ready IT Solutions

## About Us

**In today's connected world, reliable networking is the backbone of every modern enterprise – and LinkNetra IT Systems stands at the forefront of delivering secure, intelligent, and future-ready IT solutions across Maharashtra.**

**We design and deploy end-to-end active and passive networking solutions, including structured cabling, fiber optics, Wi-Fi controllers, enterprise switches, routers, and firewalls – ensuring seamless communication across data, voice, and video with maximum uptime.**

**Our expertise covers enterprise-grade switches, secure gateways, high-performance copper/fiber cabling, access points, racks, and cable management systems built for long-term stability and scalability.**

**Businesses choose LinkNetra for transparent service, fast support, genuine software licensing, cost-effective AMC plans, and solutions aligned with global standards.**

# Core IT Services

Complete & Reliable IT Solutions

## Active & Passive Networking Solutions

Reliable, scalable, end-to-end network infrastructure.

## Network Security Solutions

Firewalls, EDR, threat prevention, zero-breach security.

## IT Consulting & Advisory

Strategic IT clarity, ROI-driven planning.

## Annual Maintenance Contracts (AMC)

Proactive care & guaranteed uptime.

## CCTV & Biometric Systems

Complete physical safety & access control.

## Software Licensing & Renewals

Cost-optimized, compliant, genuine licenses.

## Technology We Trust

HP

SOPHOS

D-Link

# End-to-End Networking Solutions

---

## Active Networking Solutions

We design and deploy active networking infrastructure including enterprise switches, routers, firewalls, and wireless access points. Our solutions ensure secure data transmission, optimized traffic flow, and high-performance connectivity across your IT environment. Built for reliability and scalability, our active networks support critical business operations with maximum uptime.

---

## Passive Networking Solutions

Our passive networking services include structured cabling systems and fiber optic installations that form the foundation of a stable IT network. We ensure proper planning, high-quality materials, and industry-standard installation practices to deliver long-lasting, low-maintenance, and future-ready network infrastructure.

---

## Structured Cabling

We provide professional structured cabling solutions for voice, data, and video communication. Designed for organized layouts and easy scalability, our cabling systems reduce downtime, improve network efficiency, and simplify future upgrades.

## Fiber Optic Networking

Our fiber optic network solutions deliver high-speed, high-bandwidth connectivity for enterprises and campuses. Engineered for long-distance performance and minimal signal loss, fiber networks ensure fast data transfer, reliability, and future expansion capability.

---

## Network Devices

### (Switches, Routers & Firewalls)

We deploy enterprise-grade switches, routers, and firewalls to ensure secure, efficient, and controlled network communication. Our solutions enhance network security, optimize performance, and protect your IT infrastructure from internal and external threats.

---

## Wi-Fi & Wireless Solutions

We design and implement secure, high-coverage Wi-Fi networks tailored to office spaces, warehouses, hospitals, and campuses. Our wireless solutions ensure seamless roaming, strong signal strength, and reliable connectivity for users and devices.

---

## Built for Stability, Scalability & Uptime

All our networking solutions are engineered with a focus on long-term stability, easy scalability, and maximum uptime, ensuring your IT infrastructure grows smoothly with your business needs.

---

# Service Commitment

- 24/7 Support & Priority Response
- Always-on protection with fast resolution
- Proactive maintenance & preventive care
- Transparent service with reliable leadership

---

## Why Businesses Trust LinkNetra

- 100% Secure, enterprise-grade solutions
- Guaranteed uptime & high reliability
- Fast, cost-effective, and scalable services
- Trusted IT Partner across Maharashtra

---

## Powered by Industry Leaders

- Solutions built using world's most trusted technology brands
- Global standards, future-proof infrastructure
- Ensures reliability, performance, and security

# The LinkNetra Advantage

## **Ironclad Network Security**

Stop threats before they start

## **Strategic IT Clarity**

Smart decisions, optimized IT spend

## **Guaranteed System Uptime**

Proactive AMC-driven maintenance

## **Complete Physical Safety**

CCTV & biometric protection

## **Cost-Optimized Licensing**

Reduce costs, eliminate compliance risk
